

Jonathan Burgess is a creative leader and serial entrepreneur focused on ventures that promote sustainable products, landscapes, and real estate development. For over a decade, one of his core focuses has been assisting architects, design professionals and construction teams with creating high performing, healthy buildings and neighborhoods.

As a LEED Fellow and Vice President of the Spinnaker Group, Jonathan and this team have consulted on more than 120 certified green building projects (LEED, Green Globes, FGBC, NGBS, LBC), and is currently involved in more than 200 active

projects pursuing certification across the USA and beyond. In addition, Jonathan is the WELL project administrator for seven WELL projects outside of the United States.

As an educator, Jonathan serves as WELL Faculty, educating and advocating for the adoption of the WELL building standard across Florida and beyond. In addition, he is an adjunct professor at the University of Miami's prestigious School of Architecture.

As a volunteer, Jonathan currently serves as Facilitator of the Florida efforts for the Living Building Challenge, and serves as Advisor for the recently formed AIA Palm Beach Committee on the Environment. He is a Board Member at Connect West Palm Beach, a Director at the South Florida Fair, and is a Member of the City of West Palm Beach's Golf Advisory Board. Jonathan is also co-founder of the Green Veterans group, an organization formed to empower our Nation's heroes to learn about sustainable building and green living, while helping ease the hardship of military-to-civilian transition.
